BETTOR'S  
GUIDE**

# RACE WAGER GUIDE

## STRAIGHT BETS:

- **“Win”**: A wager that your horse will finish 1st.
- **“Place”**: A wager that your horse will finish 1st, or 2nd.
- **“Show”**: A wager that your horse will finish 1st, 2nd, or 3rd.
- **“Across the Board”**: 3 separate wagers. One wager on your horse to “win”, one wager on your horse to “place” and one wager on your horse to “show”.

## EXOTIC BETS:

- **“Quinella”**: A wager on two horses to finish the same race 1st and 2nd in any particular order. Either horse can “win” or “place”.
- **“Exacta”**: A wager on two horses to finish the same race 1st and 2nd in the exact order you specify.
- **“Trifecta”**: A wager on three horses to finish the same race 1st, 2nd and 3rd in the exact order you specify.
- **“Superfecta”**: A wager on four horses to finish the same race 1st, 2nd, 3rd and 4th in the exact order you specify.
- **“Daily Double”**: A wager on two horses in separate races, each to win their respective race.
- **“Pick 6”**: A wager on the winner in 6 consecutive races.
- **“Boxed”**: A wager that will cover all possible combinations in a multi-horse wager. A “boxed” exacta is two separate exacta wagers allowing for either horse to win. A “boxed” trifecta is six separate wagers that allow for every combination of the 3 horses chosen.

## ENTRY AND FIELD HORSES:

Two or more horses in the same race with common owners or trainers, they may be classified as one common betting interest.

## SCRATCHES:

A horse that is officially withdrawn from a race or officially declared a non-starter. If a horse is scratched after a wager has been made, the wager will be refunded; unless the horse is an entry/field horse.

## LIMITS:

Straight bets: Minimum wagers are \$2.  
Exotics: Minimum wagers vary but are usually \$1.

## HOW TO WAGER:

Every wager must have: the track name, race number, type of wager, the horse number(s) and the amount.

- **Example**: “Del Mar, 6th race, place bet, number 4 horse for \$10”.
- **Example**: “Pimlico, 1st race, quinella, number 1 and 6 horses for \$4”.

## ODDS:

The first number in odds is what you will win, the second is what you need to wager to win the first.

- **Example A**:  
1–5: You must wager \$5 to win \$1.
- **Example B**:  
2–1: You must wager \$1 to win \$2.

In the above, example A would be the “favorite” horse, the wager requires more than the payout.

## PAYOUTS:

These are the payouts based on \$2 bets.  
All payouts include the original bet plus winnings.

1-9 .....	\$2.20
1-5 .....	\$2.40
2-5 .....	\$2.80
